

DJI RONIN/RONIN M

Choose between the robust DJI Ronin or the compact and lightweight Ronin M.

Multiple Operating Modes: Fully Stabilised Mode, Follow Cam Mode and Dual Operator Mode.

Multiple Camera Setups: The Ronin can hold up to 7.25kg of load weight, allowing for the use of a Red Epic, Alexa Mini or a Sony FS7 to name but a few. The Ronin M is lightweight but strong, holding a respectable 3.6kg. This will allow for use of a Sony A7S, Canon 5D, Panasonic GH4 and plenty more.

Versatility: Choose from three operating styles; Underslung, Inverted or Briefcase Mode. A range of additional setups accessories and add-ons are available - Get in contact for more information on what we can offer.

Available for Dry Hire: Contact us for more info.
